16:24:07 From John Thompson : To properly compare the different Guangling San you should have the same person play two different complete versions.

16:27:30 From Juni Yeung (she, her) : Agreed, but even the same player doesn't guarantee that the two versions may be interpreted with equal/fair similitude, but it's definitely worth learning both and then draw the lines of equivalency

16:29:58 From Juni Yeung (she, her) : on Zhenqu 真趣: I think it'd be helpful to understand it as "essentialized motifs", in other words an abridged highlight of the piece

16:35:29 From Juni Yeung (she, her) : Also for those interested about qin songs and Lixing Yuanya: A keyword to search for is 江西派 Jiangxi School - this school pretty much petered out to Zhe style playing in the late Ming, whom did not sing.
